Bulk Dispensing Systems Lotion Soaps, Shampoo, Sanitizers, Moisturizer and Specialty Cleaners

Convenient, economical and simple to use, bulk packages can be the best choice for many general purpose and specialty applications. In addition to the gallon packages offered, most formulas can be supplied in 55-gallon drums or other customer-specified packages.

General Purpose

Ideal for any situation where medium to heavy soil removal is needed. Choose from a variety of regular, Green Seal Certified, and antibacterial soaps. Our Hair & Body Shampoo is formulated for convenience in the shower.

Hand Cleaners and Sanitizers

Clean, germ-free hands are required in all types of food-related businesses. Our HSC E-2 Hand Sanitizer Cleaner is a single-step preparation designed to combine hand washing and sanitizer. HSC is in compliance with the federal standard that requires combination detergent-germicides to effectively clean hands, as well as their germicidal equivalency to 50ppm available chlorine. (Test data available upon request.)

Our Instant Hand Sanitizer is the ideal solution when water is not available or when sanitizing after handwashing is desired. Install a pump and dispense the product directly from the gallon jug or use it to refill smaller bottles.

Moisturizers

For dry hands we offer KML Moisturizing Lotion. KML is a non-greasy formula that contains Colloidal Oatmeal, an anti-itch ingredient, Vitamin E and Aloe Vera.

Easy Push 800mL

Easy Push is proprietary to Kutol and provides a unique alternative to generic bag-in-box systems. Utilizing rigid plastic cartridges, the Easy Push System provides all the convenience of bag-in-box systems plus the added benefit of 100% evacuation (no soap is wasted, cartridges empty completely). Easy Push dispensers are durable and are ADA compliant to assure easy operation by all users. In addition, the dispenser features a large view window to allow simple inspection of the product type and soap level without opening the dispenser.

Protective Creams and Intense Moisturizer

Kutol's protective creams and intense moisturizer can help reduce the incidence of skin irritation and chapping caused by water or solvent-based contaminants. Applying protective creams to the skin prior to coming into contact with contaminants helps suspend the contaminants above the skin so they can be washed away more easily. When skin does occasionally become chapped and dry, especially in cold, dry weather, our 3+1 moisturizer is the perfect product to help solve the problem.
